Pengadegan Utara 32A, Pancoran, South Jakarta, Indonesia

## SUMMARY

---

Passionate and results-driven Software Developer with over three years of experience specializing in mobile and web development. Holds a Bachelor's Degree in Computer Systems (GPA: 3.85). Skilled in building scalable, high-performance applications using modern technologies such as Flutter, Java, Kotlin, React, and Laravel. Demonstrates strong analytical thinking, problem-solving abilities, and a keen eye for UI/UX. Known for effective collaboration with cross-functional teams and a continuous desire to learn and grow in the tech industry.

## WORK EXPERIENCES

---

### PT Sellon Tech Indonesia – Jakarta, Indonesia

Aug 2021 – Present

#### Mobile Developer

- Developed and maintained cross-platform mobile applications using Flutter for Android and iOS.
- Collaborated with UI/UX designers, backend developers, and QA teams to implement features and ensure high-quality application delivery.
- Built and deployed AI models using LSTM with Python and TensorFlow for predictive analysis.
- Created and integrated APIs using Flask and SQLite to serve predictions and handle background tasks.
- Designed scalable, modular, and reusable UI components to improve development efficiency.
- Integrated backend services to ensure seamless data communication within applications.
- Optimized app performance for responsiveness and efficiency across different devices and OS versions.
- Debugged and resolved issues post-release, improving overall app stability.
- Conducted thorough testing and wrote documentation to support scalability and maintenance.
- Collaborated via pull requests and code reviews to maintain code quality.

### Wearness Education Center – Madiun, Indonesia

Apr 2018 – Sep 2018

#### Teaching Assistant

- Assisted students in computer labs with troubleshooting issues in web and desktop programming.
- Supported learners with Microsoft Office applications including Access, Word, and Excel.
- Provided instructional support by preparing and distributing learning materials.
- Collected and organized student exams and assignments on behalf of instructors.

## EDUCATION LEVEL

---

### Institute Technology and Business Asia Malang

Sep 2018 – June 2022

#### S1 in Computer System, 3.85/4.00

- Gained experience in Java and Kotlin for Android development.
- Learned microcontroller programming and hardware-software integration.
- Explored computer networking concepts including network infrastructure and configuration.
- Final Project: Developed a mobile-based neural network system to detect rice plant diseases.
- Active member of the Computer Systems Student Association.

**Informatics and Computer Engineering**

- Learned algorithms and programming principles.
- Gained practical skills in C# for desktop application development and MySQL for database management.
- Studied fundamental accounting concepts commonly used in business and professional environments.
- Gained practical skills in Microsoft Word, Microsoft Access, and Microsoft Excel, focusing on document creation, database management, and data analysis/reporting.

**SKILLS**

---

**Soft Skills:** Problem Solving, Team Collaboration, Communication, Analytical Thinking, Time Management, Detail Oriented

**Hard Skills:** UI/UX Design, API Integration, App Deployment, Project Development, Testing & Debugging

**Tools and Technologies:** Flutter, Java, Kotlin, Swift, React JS, Laravel, Python, Android Studio, Git, Firebase, Figma, Microsoft Excel.

**Languages:** English, Bahasa Indonesia

**Course Certificates**

---

- Big Data Fundamentals – Alibaba Cloud, Digital Talent Scholarship by Komdigi (2023)
- Data Engineer – Digital Talent Scholarship by Komdigi (2022)
